Food Technology Year 9

Extended Learning Opportunities

Subject: Food and Cookery

Year: 9

Topic: Multicultural foods

Learning Objectives

- To explore the different careers in Food and cookery
- To demonstrate quality control
- To know and assess foods from around the world

Extended Learning Opportunities

- Design a flier that provides details about careers in the food industry.
- Use text books and the Internet to find out what quality control means in food production. Try and find TEN quality control checks that are used to ensure a quality food product is made
- Watch any programmes on television that relates to food preparation eg. British Bake off, Junior chef, Master Chef etc.
- Visit a food market a restaurant or supermarket and write a review of the different cultural food products on offer. Think about how the products appeal to the five senses. Include photos
