# Extended Learning Student Ideas

## Food Technology

Create a balanced three course meal for either a vegetarian, vegan or pescatarian. Try to make the meal healthy and use all of the necessary food groups while being mindful of the requirements of these diets.

**By Isabelle**

## Languages

Create a guide to day to day phrases which you might need to use when on holiday abroad. Write out the English version and the translation. Include pictures and tips to help you remember the phrases.

**By Sarah**

## Computing

Create an animated video of a short story. You could base your story fact or fiction.

**By Adam**

## Geography

Use an OS map to create a route, walk around your route taking photos of the human and physical features you see on the way which are marked on the map. Present your work as an annotated map with photos and notes to show what the route was like.

**By Jojo**

## Technology

Embroider your own bookmark, take a photo and explain why you designed it in this way and how you made it.

**By Rebecca**

## Computer Science

Name the parts for your dream PC and write down the cost for each part. Write a series of instructions to explain how you would make it. Raise the challenge and see if you can explain what each of the parts does.

**By Ismael**

## Art

Make a piece of art with nature and objects you find outside.

**By Amelia**

## All Subjects

Create revision cards of the work you have done during the last half term. Decorate the cards with images and use colour to help you remember the key points.

**By Bibi**

## Tutor Time

Donate unwanted clothes to your local charity. Take photos of the clothes you are going to give away, state which charity you have chosen to donate your clothes to and explain the work which the charity does.

**By Oskar**

Design a poster to show what it means to be a First Class Putteridge student.

**By Sukaina**
